**U. S. MAY SEND
MARINES TO CUBA**

Riot at Havana indicates disorder is
likely to occur on Election Day.
15,000 Men Are Available.

Washington, D. C., Oct. 24.—The serious situation in Cuba, as demonstrated by the riot in Havana, is exciting the grave solicitude of the United States government. Reports indicate that there are grounds for the apprehension that has existed for some time here that the approaching election period in Cuba would be a critical test of the stability of the republic.

Disorder is likely to occur on election day, next Friday, affording the chance for a declaration of fraud, and on the whole all the elements seem to be present that are required to start a revolution.

In the opinion of the Cuban minister, senior Rivero, there is no foundation for the reports that president Gomez is seeking to resign his office at this critical moment, and he is positive that the president will maintain an attitude of strict impartiality. The minister himself has been in conference with state department officials here in regard to the situation, which he believes is within the control of the Gomez government.

Meanwhile, though the exigencies of the border patrol in Texas and Arizona has changed considerably the disposition of the various bodies of United States troops that made up what is known as the "expeditionary force," the general staff has attended its plans from day to day so that it has available a workable project for the dispatch to Cuba of about 15,000 men to take charge if conditions should necessitate.

As the regular army organizations lack the mobility of the marines, it is possible these sea warriors would be called upon to initiate intervention and hold possession of Havana and perhaps one or two other of the larger ports, until the regular army contingent could be landed on the island. It happens that the situation in Nicaragua has quieted down, so that it is now possible to withdraw most of the large

**VIEWS GIVEN BY AN
EX-COUNTY JUDGE**

Prominent Dallas Citizen
Has Found Plant Juice
Highly Effective.

The following statement is made by Judge E. L. Walker, who was county judge at Breckenridge, Stevens county, Texas 61 years old and has lived in Texas 64 years. He has found Plant Juice most satisfactory, as shown by this statement:

"I have long suffered with rheumatism which particularly affected my back. The pain was almost constant and at times very severe. Nothing I ever tried gave me such quick relief as Plant Juice. I have only taken it a short time and the pain has almost entirely disappeared. I feel sure that it will cure me, and I am glad to recommend it."

People everywhere are being cured of rheumatism and kindred troubles by the use of Plant Juice. It is one of the most potent solvents of uric acid known. The eradication of this deadly poison from the blood causes rheumatism to vanish as if by magic. All catarrhal conditions, indigestion, biliousness and derangements of the stomach, kidneys, liver and blood are relieved and cured by the use of Plant Juice. Try it and be convinced, at Kelly & Pollard's. (Advertisement)

porting that they had seen him. Mrs. Esquer admitted that her husband had received a hint similar to that given Ysidoro Escobosa, that his presence in Sonora was undesirable, although he has been given amnesty for his revolutionary activity.

Escobosa, after being turned back from the immigration station at Nauch, returned to Cananea, secured a horse and started out with Esquer to Hermosillo. Both have been summoned to the state capital by the governor, although for what purpose it is not known.

That Joaquin Esquer, rebel leader, has not been in Douglas for a number of months past and that he is now in Hermosillo with Ysidoro Escobosa, for the purpose of making his peace with the state, are statements made by Mrs. Esquer, who passed through Douglas en route to Hermosillo.

The statement of Mrs. Esquer has particular bearing upon local matters as the alleged illegal search of the Hotel Mexico was caused by attaches of the Mexican consul's office re-

ALANIS'S BAIL FIXED AT \$1000.

Col. Lázaro Alanis was bound over to appear before the federal court at Santa Fe, N. M., to answer a charge of conspiracy to make exportations of munitions of war to Mexico, by commissioner George R. Oliver at his hearing Saturday morning.

Alanis's bond was fixed at \$1000 and he was given until Monday to make it. If he does not make the bond by that time a request for his removal to New Mexico, to answer the charge there, will be made.

CONSUL REQUESTED TO HAVE MURAZ HELD HERE

Acting on instructions from chief of police I. N. Davis, sergeant Leon Garner Saturday morning requested the Mexican consul to file a fugitive warrant against Angel Muraz, arrested here last Wednesday by the city detectives. Muraz is alleged to have killed Fred Stark, a mine superintendent at Conchosa, Chih., about two years ago. The dead man was a brother-in-law of W. F. McDonald, chaplain of the state penitentiary at Huntsville, Tex. Consul Lorente told sergeant Garner that he would attend to the filing of the warrant.

Billy Wolf, "Bluspencil Wolf," as he is known to the traveling profession, is in El Paso on a regular tour, calling on the men who buy hats from the manufacturers. Billy got out a Madero hat during the first Mexican revolution and they became very popular along the border.
